

## **Automated Dairy Service Technician**

Lely Center Woodstock sells, installs, and services automated milking and feeding solutions for dairy farms in Southern Ontario. Lely's innovative solutions and tailored services ensure a sustainable, profitable and enjoyable future in dairy farming. Lely is the current market leader in robotic milking and feeding.

We are presently looking for a new technician to join our service team. This position will require the candidate to be willing to work 44+ hours a week, be willing to travel across southern Ontario, take part in the on call service schedule, and work effectively as part of a team and/or individually.

### **Requirements**

- Valid driver's licence
- Trouble shooting abilities
- Mechanical aptitude
- Electrical skills
- Computer knowledge
- Communication skills - working with customers
- Agricultural background an asset but not required
- High school diploma or equivalent

### **Compensation and Benefits**

- Hands on training as well as specialized training through Lely Industries
- Service van
- Cell phone
- Laptop
- Boot/clothing allowance
- Benefit package including vacation
- Competitive wages based on experience and skillset
